Resume

Objective: Web designer and developer seeking opportunities that will take full advantage of my web design, graphic design, web development and web management experience.

Summary: Skilled at **web design and maintenance, HTML** (including extensive hand coding experience), **Dreamweaver, CSS**, and some Javascript. Graphic design skills in **Photoshop** and **Illustrator**. Very good at **training, supporting, and working with people**. Experience with **Orchard Content Management System**. Some ASP.NET/C# development experience complemented by earlier experience as system administrator and programmer.

Experience:

5/11 – 9/11 **Content Manager** (PrintPlace.com)

- Created web pages and navigation widgets, entered content and uploaded graphics into Orchard CMS.
- Used Visual Studio 2010 to maintain CSS style sheets and CSHTML files in an ASP.Net environment.
- Created and applied CSS styles to web pages to match mockups cross-browser.
- Optimized web pages by moving inline styles to external CSS style sheets and replacing individual image files with image sprites.
- Project cancelled, most of my group laid off (including me).

Please note: The next two jobs were part-time, and I worked both at the time.

2/03 – 3/10 **Web Designer** (Oregon Zoo Marketing Department, part time)

- Managed and maintained the Zoo's large internal and external web sites and many smaller web sites, using HTML, Dreamweaver, Photoshop, Acrobat, Flash and Illustrator.
- Hired and managed many web design and web programming interns with wide variety of skills and experience.
- Formatted and sent the semimonthly eNewsletters, including special ones as needed.
- Developed the Zoo's Kaseke Wildlife Conservation Awareness Organization web site.
- Developed the Zoo's volunteer web site.

- Trained and assisted people in other departments to create and post their content on the Zoo's web sites.

5/03 – 3/09 **Web Designer/Developer** (Catapult Internet Partners, Inc, now Catapult Partners, part time)

- Worked as developer on two person team creating an online camp registration system using C#, ASP.NET, VisualStudio.NET, and MS SQL Server.
- Design new web sites for clients using HTML, CSS, Javascript, Dreamweaver, Flash (including Flash animation and some Actionsript), Adobe Photoshop, and Illustrator.
- Maintained web sites for some clients.

6/96 – 9/02 **Webmaster** (Credence Systems Corp.)

- Designed web graphics for internal and external web sites, including logos for Payroll, Travel, and Clarify project web sites, using Photoshop and Illustrator.
- Developed corporate intranet from scratch, using primarily hand coded HTML in early years.
- Designed many department web sites for intranet, including Payroll, Travel, Facilities, original IT, HR, and Training web sites.
- Maintained department web sites or assisted department employees in taking over the maintenance of their web sites at their preference.
- Designed and maintained top level pages and web sites for intranet, including home page, forms page, and office information sites.
- Maintained external web site as part of team.
- Moved all internal web sites from two old web servers onto one new web server, and worked with department webmasters to ensure a smooth transition to the new web server.

1/91 – 5/96 **Network Systems Administrator III** (Credence Systems Corp.)

- Administered UNIX (SunOS and Solaris), Macintosh, VMS, and Novell systems.
- Administered email systems (UNIX, QuickMail, and cc:Mail), backups, and LANs. Provided support for Sun, Mac, VAX, and PC users.
- Worked with Service department to assist customers with UNIX and VMS needs.
- Set up VAX clusters for ITC Trade show and for onsite training at a customer site.
- Assisted customers and Service department with VAX/VMS and UNIX system administration issues as needed.

- 5/85 – 12/90 **Systems Programmer II** (Tektronix, Inc.)
- Managed division's VAX/VMS business and engineering computers.
 - Assisted customers and Service department with VAX/VMS system administration issues on several occasions.
 - Set up VAX cluster for Semicon trade show.
- 3/81 – 4/85 **Programmer Analyst I and II** (Tektronix, Inc.)
- Wrote and maintained business systems using COBOL, JCL, CICS, IMS, and BAL on IBM 370 mainframe and Basic on VAX/VMS computer.
- 7/79 – 2/81 **Programmer** (Tektronix, Inc.)
- Qualified for and successfully completed internal Programmer Trainee program.
 - Promoted to Programmer.
 - Maintained business systems using COBOL and JCL on IBM 370 mainframe.

Education: BS, Oregon State University.

Training: C# 4.0 and Visual Studio 2010, Tarrant County College, January - May 2011.
Macromedia (now Adobe) Dreamweaver, February 2001.
Adobe Illustrator, March 2001.
Adobe Photoshop, July 1999.
